Los Angeles County Economic Development Corporation

Frequently requested statistics for Los Angeles and surrounding counties on demographics, employment, income, economic base, real estate, sales and use taxes, and more.

## June 2015

Los Angeles County Economic Development Corporation The Kyser Center for Economic Research The LAEDC, the region's premier business leadership organization, is a private, non-profit 501(c)3 organization established in 1981.

The LAEDC provides economic development leadership to promote a globally competitive, prosperous and growing L.A. County economy to improve the health and well-being of our residents and communities and enable those residents to meet their basic need for a job.

Since 1996, the LAEDC has helped retain or attract more than 200,000 jobs, providing over \$12 billion in direct economic impact from salaries and over \$1.1 billion in property and sales tax revenues to the County of Los Angeles.

### Regional Leadership

The members of the LAEDC are civic leaders and ranking executives of the region's leading public and private organizations. Through financial support and direct participation in the mission, programs, and public policy initiatives of the LAEDC, the members are committed to playing a decisive role in shaping the region's economic future.

### **Business Services**

The LAEDC's **Business Development and Assistance Program** provides essential services to L.A. County businesses at no cost, including coordinating site searches, securing incentives and permits, and identifying traditional and nontraditional financing. The LAEDC also works with workforce training, transportation, and utility providers.

### **Economic Information**

Through our public information and for-fee research, the LAEDC provides critical economic analysis to business decision makers, education, media, and government. We publish a wide variety of industry-focused and regional analysis, and our Economic Forecast report, produced by the **Kyser Center for Economic Research**, has been ranked No. 1 by the Wall Street Journal.

### **Economic Consulting**

The LAEDC **Institute for Applied Economics** offers thoughtful, highly regarded economic and policy expertise to private- and public-sector clients. The group focuses on economic impact studies, regional industry analyses and economic issue studies, particularly in water, transportation, infrastructure, and workforce development policy.

### Leveraging our Leadership

The LAEDC Center for Economic Development partners with the **Southern California Leadership Council** to help enable public sector officials, policy makers, and other civic leaders to address and solve public policy issues critical to the entire region's economic vitality and quality of life.

### **Global Connections**

Our **World Trade Center Los Angeles** (WTCLA) works to support the development of international trade and business opportunities for Southern California companies as the leading international trade association, trade service organization and trade resource in Los Angeles County. It also promotes the Los Angeles region as a prime destination for foreign investment. For more information, please visit www.laedc.org/wtc.

### About the Kyser Center for Economic Research

The Kyser Center for Economic Research was named in November 2007 in honor of the LAEDC's first Chief Economist, Jack Kyser. The Kyser Center's economic research encompasses the Southern California region, which includes the counties of Los Angeles, Orange, Riverside, San Bernardino, San Diego and Ventura. The center also tracks developments and produces forecasts, studies, and reports on the California, national and international economies.

The economy of the greater Los Angeles region is driven by more than its famed entertainment industry. The region's broad economic base also includes aerospace, automotive, biotechnology, fashion, manufacturing and international trade. The Kyser Center conducts research on the individual industries of the region to gain a better understanding of ongoing changes in the economy.

The Kyser Center is highly regarded for its accurate and unbiased assessment of the economy. Kyser Center economists are also sought-after public speakers and frequent contributors to media coverage of the economy. At the heart of the Kyser Center is its mission to provide information, insights and perspectives to help business leaders, government officials and the general public understand and take advantage of emerging trends.

## Introduction to the L.A. Stats, 2015 Edition

This is a collection of business and economic indicators for the Los Angeles Five-County Area (Los Angeles, Orange, Riverside, San Bernardino, and Ventura counties) and in most instances our neighbor to the south, San Diego County. A variety of private and public sources have been used in its preparation and all tables have a source citation.

Los Angeles County is one of 58 counties in the state of California, and has a land area of 4,084 square miles. This area is somewhat smaller than the state of Connecticut. The county contains 88 separate incorporated cities, as well as many unincorporated communities. The county has a diverse geographical profile: 70 miles of coast on the Pacific Ocean; the San Gabriel mountains (the highest peak, Mt. Baldy tops out at 10,064 ft.), and part of the Mojave Desert in the northern portion of the county. Los Angeles County lies on approximately the same latitude as Atlanta, Georgia, Dallas, Texas, Tokyo, Japan and Kabul, Afghanistan.

### Climate (annual averages) – Downtown Los Angeles

Normal daily mean temperature	69 degrees F
Normal daily maximum temperature	78 degrees F
Normal daily minimum temperature	60 degrees F
Days of sunshine per year	292 days
Normal annual precipitation	14.9 inches
Snow & ice	Traces

The L.A. County Business Scan contains in capsule format the latest economic information for Los Angeles County and can be viewed at <u>http://laedc.org/news-events/newsletters/</u>.

## Notes on Sources

The employment tables in *L.A. Stats* present statistics from three major surveys: the Current Population Survey (CPS; or household survey), the Current Employment Statistics Survey (CES; or establishment survey), and the Quarterly Census of Employment and Wages (QCEW).

The CPS or household survey is released monthly and is used to represent the entire civilian noninstitutional population. This survey reports the unemployment rate because it asks if the respondent is currently working, or if they are not, about their job-seeking intentions. The household survey includes agricultural workers, self-employed workers whose businesses are unincorporated, unpaid family workers, and private household workers among the employed. It counts people on unpaid leave among the unemployed.

The CES or establishment survey (also released monthly), collects data on employment, hours and earnings from a sample of nonagricultural business establishments. The sample establishments are drawn from private nonfarm businesses such as factories, offices, and stores, as well as from federal, state and local government entities. Employees on nonfarm payrolls are those who receive pay for any part of the reference pay period, including persons on paid leave. Persons are counted in each job they hold. In contrast, the household survey has no duplication of individuals, because individuals are counted only once, even if they hold more than one job. Additionally, the establishment survey is not limited by age, whereas the household survey is limited to workers 16 years of age and older.

The QCEW data series provides a near census (compared to the population samples used for the CPS and CES series) of quarterly and annual employment and wage information by 6-digit NAICS industry at the national, state and county levels. As such, it is the most complete universe of monthly employment and quarterly wage information by detailed industry at the national, state, CMSA, MSA and county levels. The data are derived from the quarterly tax reports submitted to the Employment Development Department by California employers subject to state unemployment insurance laws and from federal agencies subject to unemployment compensation for federal employees (UCFE). The QCEW program produces a comprehensive tabulation of establishments, and employment and wage information for workers covered by California Unemployment insurance and UCFE. QCEW data is published six to seven months after the quarter it covers. Thus, while QCEW data is more comprehensive than the CPS and CES, it has a much greater time lag to release.

The three series can diverge for a variety of reasons, including multiple jobs per person, living and working in two different counties, and being self-employed. Therefore, they should not be compared directly for the purpose of inferring precise information from the divergence of the three series.

**How to cite information from L.A. Stats:** Nearly all the data in *L.A. Stats* come from sources other than the LAEDC. Please cite the data as they are cited in this publication.

## Section A: County Profiles

### Los Angeles County Profile

- ✓ Los Angeles County (Los Angeles-Long Beach-Glendale Metro Division) covers 4,084 square miles, and had a 2014 population of 10,069,036 residents; an increase of 525,053 persons since 2000. The county's population would make it the eighth largest state in the nation, just behind Georgia and ahead of North Carolina.
- ✓ A quick demographic profile of Los Angeles County indicates that: 49.0% of the population is Hispanic, 26.7% white non-Hispanic, 13.8% Asian-Pacific Islander, 8.3% black; and 2.2% other races. About 76.6% of the population has a high school diploma, while 29.7% holds a bachelor's degree or higher.
- ✓ Los Angeles County has a diverse **economic base**. Measured by 2013 private sector employment, the leading industry clusters are: 1) local health services with 394,950 workers; 2) local hospitality establishments with 348,320 employees; 3) commercial services with 279,060 workers; 4) trade with 264,470 workers; and 5) business services with 243,210 workers.
- ✓ The "new economy" of Los Angeles County is largely technology driven. This sector includes biomedical, digital information technology, and environmental technology, all of which is built upon the advanced technical research capabilities in the county. Another key driver is creativity. There is an energetic fusion between technology and creativity such as in video game and film production.
- ✓ Los Angeles County is the largest manufacturing center in the U.S., employing 366,100 workers in 2013. The largest sectors by employment were: transportation equipment with 47,000 workers (primarily aerospace); apparel with 46,100 workers; fabricated metal products with 43,300 workers; computer and electronic products with 39,200 workers; and food products with 38,400 workers.
- ✓ International trade is a major driver of the area's economy. The Los Angeles Customs District, which includes the ports of Long Beach and Los Angeles, Port Hueneme, and Los Angeles International Airport, was the nation's largest in 2014. The value of two-way trade passing through the Los Angeles Customs District totaled \$416.6 billion in 2014, compared with \$279.1 billion for second-place New York. Major investments are under way to expand the ports, LAX airport and related transportation facilities in Los Angeles County.
- ✓ Higher and specialized education is a core strength of Los Angeles County, with 113 four-year public and private college and university campuses. These range from UCLA, USC, the California Institute of Technology, and the Claremont Colleges, to top-rated specialized institutions like the Art Center College of Design, the California Institute for the Arts, the Fashion Institute of Design and Merchandising, and the Otis College of Art and Design. Medical education is also a strong point. Los Angeles has two each of medical schools, dental schools, and eye institutes, plus specialized research and treatment facilities like the City of Hope. In addition, the county's 33 community colleges offer many innovative programs, including culinary arts, fashion design, multimedia, and computer assisted design and manufacturing.
- ✓ Los Angeles County's transportation network is extensive. In addition to the San Pedro Bay sea ports and LAX airport, there are two other busy commercial airports (Bob Hope in Burbank and Long Beach). The freeway system is well-known but there are also many mass transit options, including

Amtrak, Metrolink (commuter heavy rail), and MetroRail (subway and light rail). With 88 miles (and expanding) of track, Metro's light rail system is the second largest in the United States (based on ridership), providing transportation for more than 356,000 passengers on workdays. The Burlington Northern Santa Fe (BNSF) and Union Pacific railroads provide excellent cross-country freight service.

✓ Quality of life options are numerous and varied in Los Angeles County. Recreation opportunities range from professional sports teams to personal recreation at beaches, marinas, and mountain resorts. The number of fine and performing arts activities is growing, as are special festivals including the renowned Tournament of Roses. Notable cultural landmarks include the Getty Center, Walt Disney Concert Hall, the California Science Center, the Staples Center sports arena, and the Aquarium of the Pacific in Long Beach.

### **Orange County Profile**

- ✓ Orange County (Santa Ana-Anaheim-Irvine Metro Division) covers 948 square miles, and had a 2014 population of 3,132,681 residents; an increase of 278,788 since 2000. If Orange County were a state, it would rank 30th in the nation, just behind Connecticut. Within the State of California, Orange County ranks third in population behind the counties of Los Angeles and San Diego.
- ✓ A quick demographic profile of Orange County indicates that 42.3% of the population is white non-Hispanic, 34.6% is Hispanic, 19.1% is Asian-Pacific Islander, and 4.1% is black or other races. About 84.0% of the population has a high school diploma or more, while 37% has a bachelor's degree or more.
- Technology is a vital force in the Orange County economy, with several centers of activity, including Irvine (around both the Spectrum and UC Irvine) and the mid-county area. Areas of emphasis include aerospace, computer software (especially gaming software), semiconductors and biomedical applications.
- Orange County is a major manufacturing center with 157,000 workers employed in this sector in 2013. The largest sectors by employment were: computer and electronic products with 32,700 workers; fabricated metal products with 23,300 workers; miscellaneous manufacturing with 22,500 workers (mostly medical device manufacturing), transportation equipment with 13,800 workers (primarily aerospace); and machinery with 9,600 workers.
- ✓ The higher education assets of Orange County are extensive, including the University of California-Irvine (which has a medical school), California State University-Fullerton, Chapman University, and the Southern California College of Optometry. There are also several well-regarded community colleges.
- Transportation services in Orange County are well developed. In addition to the freeway system, rail mass transit service is offered by Amtrak and Metrolink, and bus service by the Orange County Transit Authority. Commercial air service is offered at Orange County John Wayne Airport. Rail freight service is provided by Burlington Northern Santa Fe (BNSF).
- Quality of life is a strong point for Orange County, with nearly 40 miles of coastline and three small craft marinas. The mountains on the east side of the county offer a variety of outdoor recreational opportunities. An array of fine and performing arts venues includes the Orange County Performing Arts Center in Costa Mesa, plus professional baseball and ice hockey. The modern theme park was

born at Disneyland in Anaheim and a second park, California Adventure, is located right next door. Knott's Berry Farm and its sibling, Soak City USA also are located in Orange County.

### Riverside-San Bernardino Area Profile

- ✓ The Riverside-San Bernardino-Ontario Metropolitan Statistical Area is comprised of Riverside and San Bernardino counties and is often called the "Inland Empire". The area is bordered by Los Angeles and Orange counties on the west, and on the east by the states of Nevada and Arizona. Riverside County covers 7,304 square miles, while San Bernardino covers 20,106 square miles. The 2014 population of the two-county area totaled 4,386,916 persons; an increase of 1,110,455 persons since 2000. Riverside and San Bernardino counties are the fourth and fifth largest by population in California.
- ✓ A quick demographic profile of the two counties indicates that 49.6% of the population is Hispanic; 33.8% is white non-Hispanic; 10.4% is black or other races; and 6.2% is Asian-Pacific Islander. As to education, 78.9% of the two counties' population has a high school diploma or higher, and 19.6% has a bachelor's degree or higher.
- ✓ The Inland Empire is also an important manufacturing center with employment reaching 86,500 jobs in 2013. The largest industry sectors were: fabricated metal products with 13,000 employees; plastic and rubber products with 8,600 workers; food production with 7,400 workers; miscellaneous manufacturing (medical instruments, toys, sporting goods) with 7,400 workers; and transportation equipment with 6,000 employees.
- International trade plays an important role in the Inland Empire's economy. The area is a major transportation hub for both rail and truck service. The Los Angeles Ontario International Airport is a UPS hub, handling domestic small packages and providing service to Asia. The area also contains many large distribution centers occupied by firms moving goods between Southern California's ports and to the rest of the U.S.
- ✓ The Inland Empire has an impressive array of higher education facilities, including the University of California-Riverside, California State University San Bernardino, the University of Redlands, and the Loma Linda School of Medicine. Just to the west of the county line in Los Angeles are the Claremont Colleges and Cal Poly Pomona. There are also several community colleges located in the area.
- ✓ As noted above, the Inland Empire is a hub for transportation services in Southern California with rail freight provided by Union Pacific and Burlington Northern Santa Fe (BNSF). For travelers, there are the L.A./Ontario International Airport, easy freeway access, as well as rail service offered by Amtrak and Metrolink (three lines). In addition, three ex-military air fields are being redeveloped for commercial use: George Air Force Base renamed as the Southern California Logistics Airport; Norton AFB repurposed as the San Bernardino International Airport (general aviation and cargo); and March AFB as the March Inland Port.
- ✓ The two-county Inland Empire has a diverse portfolio of **quality of life** elements. Resort destinations in the desert feature championship golf courses and tennis tournaments, while those in the mountains offer skiing in the winter and mountain hiking and biking the rest of the year. Several Indian casinos are located in the Coachella Valley. There are several fine and performing arts venues. The Auto Club (formerly California) Speedway in Fontana is the largest auto racetrack in Southern California.

### San Diego County Profile

- ✓ San Diego County (San Diego-Carlsbad-San Marcos Metropolitan Statistical Area ) covers 4,526 square miles, and had a 2014 population of 3,212,298; an increase of 383,924 persons since 2000. The county's population is the second largest of all California's counties (behind Los Angeles County).
- A quick demographic profile of San Diego County indicates that: 47.5% of the population is white non-Hispanic, 33.0% is Hispanic, 11.1% is Asian-Pacific Islander, and 8.4% is black or other races. Over 85% of the population has a high school diploma or more, while nearly 35% has a bachelor's degree or more.
- A large portion of the economy of San Diego County is **technology driven**, and includes biomedical research and development, communications, and computer science. These sectors are closely tied to the cutting-edge technological research capabilities of the county's businesses and the University of California-San Diego.
- ✓ San Diego is a large manufacturing center in the U.S. with 94,400 workers in 2013. The largest manufacturing sectors in the county were: computer and electronic products with 24,500 workers and transportation equipment (primarily aerospace) with 13,700 workers. Following were miscellaneous products with 10,600 workers (including 6,000 workers in medical device manufacturing), machinery manufacturing (8,300 workers) and chemicals (7,400 workers, over 80% of which were in pharmaceuticals manufacturing). San Diego also has the only sizable shipbuilding industry on the West Coast.
- International trade is a major component of the area's economy. The San Diego Customs District is a major channel for U.S.-Mexico trade. In 2014, total two-way trade through the customs district reached \$64.2 billion, with Mexico accounting for \$55.0 billion or 86% of the total.
- ✓ Tourism is a major source of income for San Diego County. Besides its own tourist attractions such as SeaWorld, the San Diego Zoo, Wild Animal Park, and Legoland, San Diego also benefits economically from travelers going to and from Mexico. In addition, several cruise ships set sail from or make port calls at San Diego.
- ✓ Higher and specialized education is a strong suit for San Diego County, with 59 college and university campuses, including the University of California-San Diego. San Diego State University and California State University-San Marcos are also significant education assets.
- Transportation service in San Diego County is extensive. The major commercial airport, San Diego International Airport (a.k.a. Lindbergh Field), offers domestic service and international flights to Canada, Mexico and London. In addition to the area's freeway system, there are heavy passenger rail services including Amtrak, Metrolink (connecting Oceanside with Los Angeles, Orange, Riverside, and San Bernardino counties), and the "Coaster" (between Oceanside and San Diego). The San Diego Trolley (light rail) serves much of the City of San Diego. Rail freight service is provided by Burlington Northern Santa Fe (BNSF).
- San Diego County is home to several military bases, including Camp Pendleton (U.S. Marine Corps), Miramar (Marine Corps aviation), and several naval stations for ships, submarines, and naval

aviation. San Diego is also the home port of the U.S. Pacific Fleet, which covers the Pacific and Indian Oceans.

Quality of life options are numerous in San Diego County. These range from professional sports teams to personal recreation at the county's beaches, marinas, and mountain resorts. The 1,200-acre Balboa Park, a large urban park in the heart of San Diego, is home to several museums and the San Diego Zoo. SeaWorld and the San Diego Zoo and Wild Animal Park attract visitors from near and far, and Legoland California is a perennial favorite among children of all ages. There is a growing array of fine and performing arts activities as well as Indian gaming facilities.

### Ventura County Profile

- Ventura County (Oxnard-Thousand Oaks-Ventura Metropolitan Statistical Area) covers 2,208 square miles, and had a 2014 population of 844,259; an increase of 87,357 since 2000.
- ✓ A quick demographic profile of Ventura County indicates that 47.2% of the population is white non-Hispanic, 41.8% is Hispanic, 6.8% is Asian-Pacific Islander, and 4.2% is black or other races. About 83% of the population has a high school diploma or more, while over 31% has a bachelor's degree or more.
- Agriculture continues to play an important role in the economy of Ventura County. According to the Ventura County Farm Bureau, there is one acre of irrigated farm land in the county for every acre of city. In 2014, there were 25,600 workers employed in the county's crop production industries, which consist primarily of fruits and vegetables, nursery stock and cut flowers.
- ✓ There is a significant cluster of **new technology** activities in eastern Ventura County, with a concentration around Camarillo. Bio-med giant Amgen is headquartered in nearby Thousand Oaks.
- ✓ Port Hueneme provides an international trade component to the county's economy and is the only deep water harbor between Los Angeles and the San Francisco Bay area. Port Hueneme serves as the U.S. Port of Entry for California's central coast region. This is a niche facility that specializes in the import and export of automobiles, fresh fruit and produce. In 2014, the port handled 5,248 tons of cargo with total two-way trade valued at over \$9.2 billion.
- On the higher education front, California Lutheran University, California State University-Channel Islands and several community colleges are located in the county.
- Besides Port Hueneme and the freeways, Ventura County has passenger rail transportation service by both Amtrak and Metrolink. Commercial air service is available at Santa Barbara Airport to the north.
- Quality of life is a strong suit for Ventura County, which has about 40 miles of coastline including two small craft harbors and easy access to the Channel Islands. Inland recreation areas include Lake Casitas, the famed Ojai resort area, vineyards, and the Los Padres National Forest.

5181	Internet service providers, web search	5,489	5,699	6,686								
5182	Data processing, hosting, and related services	5,582	5,599	5,554	5,808	5,730	5,135	4,300	4,452	5,116	5,566	5,555

\*Note: In 2007 there was a change in the industry classification codes for firms engaged in Internet publishing, broadcasting and web search.

From 1998 to 2006, ISP's, web search and data processing were covered under NAICS code 5181 and Internet publishing and broadcasting were under NAICS code 516. In 2007, 5181 and 516 were consolidated under NAICS code 51913 but firms providing internet access via client supplied telecommunications equipment i.e. telephones or "dial-up" were reclassified to NAICS code 517919 "all other telecommunications." Therefore, one cannot directly compare 1998-2006 employment figures with 2007-2010 employment.
