- Deadlines will be extended and adjusted. Once the contract is signed, updated deadlines will be communicated.
  - The 60-day deadline for the finalized Governance Structure will be extended, based on the contract signed date.
- Updated SFPs for Pilot Project have been released, more information will be presented soon.

## **General Comments:**

Looking for suggestions on expanding Governance Structure seats:

- Education seat one seat is not representative of all educational levels (k-12, post-secondary education, vast region).
- Workforce and Labor seat numbers should be expanded to be more representative and inclusive.

Requesting clarity on functionality of all roles: duties, onboarding process, and decision-making power.
